

# Sunny Explorers: Exploring Me and My World

Holidays are here, hip hip hooray!  
With friends, we laugh and play.  
Ice creams melting, oh so sweet,  
Mango treats, our favourite feat.

In the park, we run and hide,  
Summer fun, with friends by our side.

Dear Parents,

Summer break is a time for our little Asterians to relax, play, and enjoy the freedom of being young. While they have fun, they can also reinforce what they've learned over the past few months. This process enriches their minds and fosters a sense of independence and achievement.

In addition to promoting independence, these activities lay the groundwork for advanced skills like coordination, concentration, and abstract thinking. So, we've prepared short and interesting assignments for the vacation. Encourage your child to space out the work and enjoy the learning process.

*Happy summer!*
